Summary

Shopify Developer with nearly 3 years of hands-on experience building, customizing, and optimizing Shopify stores. Highly skilled in Shopify theme development using Liquid, HTML, CSS, and JavaScript, with strong experience converting Figma and PSD designs into fully functional, responsive Shopify websites. Experienced in creating custom features and functionalities that often replace paid Shopify apps to reduce store costs and improve performance. Proficient in integrating apps, troubleshooting store issues, and enhancing user experience to improve conversions. Possesses a strong understanding of e-commerce operations and customer behavior, and is currently expanding knowledge in digital marketing and advertising to support overall store growth.

Experience

Apex Consulting Remote
Shopify Developer 03/10/2025 - 30/04/2026

- Converted Figma designs into responsive Shopify themes using reusable sections and scalable theme structure.
- Built custom features using Liquid, JavaScript, and metafields to control dynamic product and content behavior.
- Implemented cart logic, conditional pricing displays, and interactive product page elements based on business rules.
- Integrated and configured third-party apps while troubleshooting UI and functionality conflicts.
- Debugged live store issues and deployed production-safe fixes without affecting ongoing orders.
- Optimized storefront performance by reducing unused scripts, optimizing assets, and improving load speed.
- Coordinated with designers and project managers to translate requirements into functional storefront features.
